

**MEDIA RELEASE**  
February 2007

## **Contract Logistics helps Kiwis to support Emirates Team NZ** Managing the national distribution of New Zealand's biggest postcard

Contract Logistics manage the day to day logistics and distribution of the marketing and promotional material found in Post shops nationwide. With their recent support of Team New Zealand, NZ Post had a unique delivery to be made alongside their usual material earlier this month.

NZ Post required 372 weather resistant puzzle pieces to be managed and distributed, in time for New Zealanders across the country to add their messages of support to Emirates Team New Zealand, as part of the 'Lets Bring it Home' campaign.

The pieces are available to be signed until 10 February, after which they will be shipped to the team's America's Cup base in Valencia, Spain to be assembled into a 114 square metre billboard and mounted on the side of the team's campaign headquarters.
